2. Teach the basic principles and skills of discipleship

- Throughout this course we will teach you basic Biblical principles and give you tools that will help you disciple others more effectively.

3. Encourage participants to continue to grow as God's disciples

- God tells us He is faithful to complete the good work He started in us. This work can be accomplished as we seek to be discipled by God and others. Discipleship is a lifelong process!

4. Equip believers to become self-initiating and reproducing disciplers
